

## Practical Test – PHP – Web Application Development using PHP

Duration: 1 hour – Total Marks: 15

FPT-APTECH has a library. There are thousands of books in the library. The school needs a website to manage book information. Make a website with the following basic features:

1. List all books available in the library
2. Search for books by name

Know that the table structure is as follows:

Name	Type	Collation	Attributes	Null	Default	Comments	Extra
<b>bookid</b> 	int(11)			No	None		AUTO_INCREMENT
<b>authorid</b>	int(11)			No	0		
<b>title</b>	varchar(55)	utf8_general_ci		No			
<b>ISBN</b>	varchar(25)	utf8_general_ci		No			
<b>pub_year</b>	smallint(6)			No	0		
<b>available</b>	tinyint(4)			No	None		

MARKS		
02.0		Creating database, table and Insert data
